Date of Birth: 1987-08-31, ORCID: [0000-0001-9688-3458](https://orcid.org/0000-0001-9688-3458), [LU Webpage](#)

## Professional Appointments & Experience

**Lund Observatory (Division of Astrophysics, Department of Physics from 2023) Lund University (Sweden)**  
*Postdoctoral Researcher* June 2020–Present

**Lund Observatory, Department of Astronomy and Theoretical Physics** **Lund University (Sweden)**  
*Carl Tryggers Postdoctoral Fellow (2018-2020)* June 2018–May 2020

**Nicolaus Copernicus Astronomical Center, Polish Academy of Sciences** **Warsaw (Poland)**  
*Graduate Student/Research Assistant* Nov 2013–May 2018

## Education

**Nicolaus Copernicus Astronomical Center, Polish Academy of Sciences, Warsaw (Poland)**  
• **PhD in Astronomy (with distinction)** Nov 2013–May 2018  
Thesis: “Investigation of Black Hole Populations in Dense Stellar Systems using [MOCCA code](#) for Star Cluster Simulations”  
Supervisor: Prof Mirek Giersz

**University of Innsbruck (Austria), University of Padova (Italy) & University of Belgrade (Serbia)**  
• **Master of Science in Astronomy & Astrophysics** Oct 2010–Sep 2012  
Astromundus: Erasmus Mundus Joint Masters Degree  
Master Thesis: “Optical Counterparts of Ultraluminous X-ray Sources”  
Supervisor: Dr Luca Zampieri (INAF - Padova)

**University College Utrecht, Utrecht University (The Netherlands)**  
• **Bachelor of Science (Hons) and Bachelor of Arts (Hons) in Liberal Arts & Sciences** Aug 2006–July 2009  
Double Major in Physical Sciences (Physics & Mathematics) and Humanities (Philosophy & Religious Studies)  
Bachelor Thesis (Science): “Peculiar Features in the Onsets of Thermonuclear Flashes on Neutron Stars”  
Supervisor: Dr. Jean in't Zand (HEA, SRON Netherlands Institute for Space Research)  
Bachelor Thesis (Humanities): “The Problem of Redemptive Truth: From Nietzsche to a Post-Metaphysical Culture”  
Supervisor: Dr. Floris van der Burg (University College Utrecht, Utrecht University)

## Publications in peer-reviewed scientific journals

A complete list of all publications can be found at the [NASA ADS service](#) or [ORCID Page](#) or [Google Scholar Page](#)

1. A. Leveque, M. Giersz, **A. Askar**, M. Arca-Sedda: *MOCCA-Survey Database: Extra Galactic Globular Clusters. III. The population of black holes in Milky Way and Andromeda - like galaxies* (Accepted for Publication in MNRAS 2023). [\[ADS Link\]](#)
2. L. Hellström **A. Askar**, A. Trani, M. Giersz, R. Church and J. Samsing *Influence of tidal dissipation on outcomes of binary-single encounters between stars and black holes in stellar clusters* (Accepted for Publication in MNRAS 2022). [\[ADS Link\]](#)
3. A. Hypki, M. Giersz, J. Hong, A. Leveque, **A. Askar**, D. Belloni, M. Otulakowska-Hypka *MOCCA: Dynamics and evolution of binary stars of multiple stellar populations in tidally filling and underfilling globular star clusters* (Accepted for Publication in MNRAS 2022). [\[ADS Link\]](#)
4. P. Amaro-Seoane, J. Andrews, M. Arca Sedda, **A. Askar** and 154 co-authors *Astrophysics with the Laser Interferometer Space Antenna* (Accepted for Publication in Living Reviews In Relativity 2022). [\[ADS Link\]](#)
5. N. Singh, T. Bulik, K. Belczynski and **A. Askar** *Exploring compact binary populations with the Einstein Telescope* Accepted for Publication in Astronomy & Astrophysics (2022). [\[ADS Link\]](#)
6. K. Maliszewski, M. Giersz, Mirek, D. Gondek-Rosińska, **A. Askar** and A. Hypki *MOCCA-SURVEY Database II – Properties of Intermediate Mass Black Holes escaping from star clusters* MNRAS, Vol. 514, Issue 4, pp.5879-5889 (2022). [\[ADS Link\]](#)
7. A. Leveque, M. Giersz, M. Arca-Sedda, **A. Askar**: *MOCCA-survey data base: extra galactic globular clusters - II. Milky Way and Andromeda* MNRAS, Vol. 514, Issue 4, pp.5751-5766 (2022). [\[ADS Link\]](#)

8. **A. Askar**, M. B. Davies and R. P. Church: *Formation of supermassive black holes in galactic nuclei II: retention and growth of seed intermediate-mass black holes*. *MNRAS*, Vol. 511, Issue 2, pp.2631-2647 (2022). [\[ADS Link\]](#)
9. A. Kamlah, A. Leveque, R. Spurzem, M. Arca Sedda, **A. Askar**, S. Banerjee, P. Berczik, M. Giersz, J. Hurley, D. Belloni, L. Kühmichel and L. Wang: *Preparing the next gravitational million-body simulations: Evolution of single and binary stars in Nbody6++GPU, MOCCA and McLuster* *MNRAS*, Vol. 511, Issue 3, pp.4060-4089 (2022). [\[ADS Link\]](#)
10. F. Aros, A. C. Sippel, A. Mastrobuono-Battisti, P. Bianchini, **A. Askar** and G. van de Ven: *Using Binaries in Globular Clusters to Catch Sight of Intermediate-Mass Black Holes*. *MNRAS*, Vol. 508, Issue 3, pp.4385-4398 (2021). [\[ADS Link\]](#)
11. **A. Askar**, M. B. Davies and R. P. Church: *Formation of super-massive black holes in galactic nuclei I: delivering seed intermediate-mass black holes in massive stellar clusters*. *MNRAS*, Vol. 502, Issue 2, pp.2682-2700 (2021). [\[ADS Link\]](#)
12. F. Aros, A. C. Sippel, A. Mastrobuono-Battisti, **A. Askar**, P. Bianchini and G. van de Ven: *Dynamical modelling of globular clusters: challenges for the robust determination of IMBH candidates*. *MNRAS*, Vol. 499, Issue 4, pp.4646-4665 (2020). [\[ADS Link\]](#)
13. J. Hong, **A. Askar**, M. Giersz, A. Hypki and S. Yoon: *MOCCA-SURVEY Database I: Binary black hole mergers from globular clusters with intermediate mass black holes*. *MNRAS*, Vol. 498, Issue 3, pp.4287-4294 (2020). [\[ADS Link\]](#)
14. J. Samsing, D. J D'Orazio, K. Kremer, C. L. Rodriguez and **A. Askar**: *Single-single gravitational-wave captures in globular clusters: Eccentric deci-Hertz sources observable by DECIGO and Tian-Qin*. *Physical Review D*, Vol. 101, Issue 12, article id.123010 (2020). [\[ADS Link\]](#)

## Selected Talks/Presentations at International Conferences & Institutes

---

- Talk on “*GW190521 and intermediate-mass black holes in star clusters: formation pathways and open questions*” at Niels Bohr International Academy (NBIA) Workshop on Black Hole Dynamics: From Gaseous Environments to Empty Space in Copenhagen, Denmark (May/June 2022)
- Invited Review Talk on “*Dynamical formation of GW190521 in stellar clusters*” at American Physical Society (APS) April Meeting in New York City, USA (April 2022)
- Invited Seminar on “*Formation and growth of supermassive black holes in galactic nuclei: intermediate-mass black holes delivered in stellar clusters*” at Nicolaus Copernicus Astronomical Center of the Polish Academy of Sciences in Toruń, Poland (Feb 2022)
- Talk on “*Formation and growth of supermassive black holes in galactic nuclei: intermediate-mass black holes delivered in stellar clusters*” at European Astronomical Society (EAS) Annual Meeting (Leiden, The Netherlands/Virtual Meeting 2021)
- Invited Seminar on “*Formation and growth of supermassive black holes in galactic nuclei: intermediate-mass black holes delivered in stellar clusters*” at International Teeminar, Organized by ARI Heidelberg/Beijing (2021)
- Talk on “*Formation and growth of supermassive black holes in galactic nuclei: LISA binaries & intermediate-mass ratio inspirals*” at 3<sup>rd</sup> LISA Astrophysics Working Group Meeting (Zurich, Switzerland/Virtual Meeting 2021)
- Invited Seminar Talk on “*Black Hole Dynamics in Star Clusters: Evolution and Growth from Stellar to Supermassive Scales*” at the CENTRA - Center for Astrophysics and Gravitation (Lisbon, Portugal, 2021)
- Talk on “*Formation and Growth of Supermassive Black Holes in Galactic Nuclei: Dynamics of Triple Intermediate-mass Black Holes Delivered in Stellar Clusters*” at the Triple Evolution and Dynamics 3 (TRENDY 3 - Virtual Meeting 2021)
- Invited Seminar on “*Formation of gravitational wave sources in star clusters: From stellar to intermediate-mass black holes*” at University of Birmingham (Birmingham, United Kingdom 2020).
- Invited Talk on “*Dynamical formation of gravitational wave sources*” at XIX Serbian Astronomical Conference (Belgrade, Serbia 2020).
- Talk on “*Formation of supermassive black holes in galactic nuclei: delivering seed intermediate-mass black holes in stellar clusters*” at Galaxy Coffee, Max Planck Institute for Astronomy, MPIA (Heidelberg, Germany 2020).
- Talk on “*Formation of intermediate-mass black holes in dense stellar clusters*” at the 13th International LISA Symposium (Virtual Meeting 2020)
- Invited Review Talk on “*Dynamical Formation of Binary Black Holes in Dense Stellar Environments*” at European Astronomical Society (EAS) Annual Meeting 2020, Symposium 5: *What have we learned from the observed population of gravitational wave sources?* (Leiden, The Netherlands/Virtual Meeting 2020)
- Talk on “*Supermassive Black Hole Formation in Galactic Nuclei: The Role of Intermediate-mass Black Holes*” at Compact Objects For All Meeting at Lund Observatory, Department of Astronomy and Theoretical Physics, Lund University (Lund, Sweden 2020)
- Invited Talk on “*Gravitational Wave Sources Originating in Globular Clusters*” at DKGWEM-2020: Gravitational Wave Science in Denmark, Niels Bohr Institute, Copenhagen University (Copenhagen, Denmark 2020)
- Talk on “*Stellar Mass Black Holes in Globular Clusters: Dynamical Consequences and Observational Signatures*” at Galaxy Coffee, Max Planck Institute for Astronomy, MPIA (Heidelberg, Germany 2019).
- Invited Talk on “*Dynamically Driven Mergers of Black Holes in Dense Stellar Environments*” at Astrophysics with Gravitational Wave Detections Workshop (Warsaw, Poland 2019).
- Talk on “*Why Black Holes Matter in Globular Clusters: Dynamical Consequences and Observational Signatures*” at IAUS 351: Star Clusters: from the Milky Way to the Early Universe and MODEST 19 (Bologna, Italy 2019).
- Talk on “*How black holes can influence the evolution of globular clusters*” at the MWStreams 2018 conference on “*Survival of Dense Star Clusters in the Milky Way System*” (Heidelberg, Germany 2018)
- Invited Talk on “*Black Hole Populations in Galactic Globular Clusters*” at the SFB 881 International Workshop on Star “*Clusters around the Milky Way and in the Local Group*” (Heidelberg, Germany 2018)
- Invited to attended meeting of the “*Evolution of Rich Stellar Populations & Black Hole Binaries*” International Space Science Institute (ISSI) Team as a core participant and presented a talk on “*Black Hole Subsystems in Galactic*

*Globular Clusters*” at the ISSI (Bern, Switzerland 2018).

- Talk on *“Black Hole Subsystems in Galactic Globular Clusters”* at MODEST 18 (Santorini, Greece 2018).
- Invited Seminar Talk on *“Investigating Black Hole Populations in Globular Clusters with MOCCA Code for Star Cluster Simulations”* at Galileo Galilei Department of Physics and Astronomy, University of Padova/INAF-Astronomical Observatory of Padova (Padova, Italy 2018).
- Invited Seminar Talk on *“Investigating Black Hole Populations in Globular Clusters with MOCCA Code for Star Cluster Simulations”* at Eötvös Loránd University (Budapest, Hungary 2018).
- Talk on *“MOCCA-Survey Database I: Binary Black Holes and Intermediate Mass Black Holes in Globular Clusters”* at Numerical Scattering Workshop, Center for Computational Astrophysics, Flatiron Institute, (New York City, USA 2017).
- Talk on *“Gravitational Waves and High Energy Sources Originating From Globular Clusters”* at MODEST 17 (Prague, Czech Republic 2017).
- Invited Seminar Talk on *“MOCCA-Survey Database I: Binary Black Holes and Intermediate Mass Black Holes in Globular Clusters”* at Lund Observatory Seminar (Lund, Sweden 2017).
- Seminar Talk on *“MOCCA-Survey Database I: Binary Black Holes and Intermediate Mass Black Holes in Globular Clusters”* at Nicolaus Copernicus Center Wednesday Colloquium (Warsaw, Poland 2017).
- Talk on *“Coalescing Binary Black Holes Originating from Globular Clusters”* at Heraeus-Seminar 61: Stellar Aggregates (Bad Honnef, Germany 2016).
- Invited Seminar Talk on *“MOCCA-Survey Database I: Binary Black Holes and Intermediate Mass Black Holes in Globular Clusters”* at KIAA/Peking University Lunch Talk (Beijing, China 2016).
- Invited Talk on *“Merging Binary Black Holes Originating from Globular Clusters”* at Astro-GR 2016 Meeting (Benasque, Spain 2016).
- Presented poster on *“Simulating Observations of MOCCA Star Cluster Simulations with COCOA”* at EES 2015 School on Stellar Clusters (Banyuls sur Mer, France 2015).
- Talk on *“Simulating Observations of MOCCA Star Cluster Simulations with COCOA”* at MODEST 15 (Concepcion, Chile 2015).
- Poster presentation, *“MOCCA Code for Star Cluster Simulations: Comparison with Optical Observations using COCOA”* at International Conference of Young Astronomers (Toruń, Poland 2014).
- Talk on *“X-ray Bursts”* at the 5th Serbian Astronomical Student Workshop hosted by University of Belgrade and University of Novi-Sad (Belgrade, Serbia 2011).

## Supervision, Mentoring & Teaching Activities

---

- Gave a two lecture on *“Computational Gravitational Dynamics: Simulating the Evolution of Globular Clusters”* in the 'ASTM22 - Computational Astrophysics' masters course at Lund Observatory (Spring 2023).
- Supervised high school project of Viktor Wellander (Thorén Business School, Örebro, Sweden) on *“Determining the Mass of the Supermassive Black Hole in our Galaxy”* (Fall 2022).
- Prepared a 30 minute video lecture on *“Introduction to Globular Clusters”* for the 'Galactic Dynamics VT22' PhD course at Lund Observatory (Spring 2022) and led a 2-hour follow up class on the same topic.
- Gave a 2 hour lecture on *“Black holes in stellar clusters”* in the 'ASTM12 - High Energy Astrophysics' masters course at Lund Observatory (Spring 2021) and did a 2-hour follow up class with group exercises and discussion.
- Led lecture on *“Astrophysical Origin of Gravitational Wave Sources”* for the 'Topics on Theoretical Astrophysics' PhD course at Lund Observatory (Spring 2021)
- Master thesis supervisor of Markus Strickert (Master student at Lund University 2021-2022, currently a PhD student at Leiden University, The Netherlands); [\[Thesis Link\]](#)
- Master thesis supervisor of Lucas Hellström (Master student at Lund University 2019-2020, currently a PhD student at CAMK, Warsaw, Poland); [\[Thesis Link\]](#)
- Bachelor thesis supervisor of Annie Csomer at Lund University (2022); [\[Thesis Link\]](#)
- Completed course on *“Learning and teaching in higher education - theory and practice”* for pedagogical training (Lund University, Spring 2020)
- Gave a 2 hour lecture on *“Neutron stars, pulsars and compact binaries”* for the 'ASTM12 - High Energy Astrophysics' masters course at Lund Observatory (Spring 2019)
- Co-supervised summer student projects at Nicolaus Copernicus Astronomical Center (Poland):
  - Jakub Morawski (2017 Bachelor Student, Warsaw Observatory)
  - Piotr Kołodziejcki (2016 Bachelor Student, Warsaw Observatory)
  - Jakub Klencki (2016 Master Student, Warsaw Observatory)
  - Piotr Adamczyk (2015 Bachelor Student, Warsaw Observatory)
  - Magdalena Szponar (2015 Bachelor Student, Warsaw Observatory)

- Co-supervised and assisted with Masters thesis project of Riko Schadow (Ludwig Maximilian University of Munich, 2015) and research project by Arthur Kuehlwein (Heidelberg University, 2015)

## Prizes & Awards

---

- Polonez Bis 1 fellowship awarded by the European Commission and the Polish National Science Centre (NCN) under the Marie Skłodowska-Curie COFUND action (2023 to 2025)
- **Declined:** Research fellowship from the Swedish National Space Agency (Rymdstyrelsen) (2023 to 2026)
- Awarded Carl Tryggers Postdoctoral Fellowship (2018 to 2020)
- PhD Scholarship in Stellar Dynamics, National Science Center, Poland (2013 to 2017)
- Preludium grant for PhD Students awarded by the Polish National Science Center (NCN) in 2016
- Award for Best Poster at International Conference of Young Astronomers (Toruń, Poland 2014)
- Erasmus Mundus (European Commission) Scholarship for Joint Masters Degree in Astrophysics and Astronomy (2010 to 2012)    Total Award: €15,000
- Excellence Scholarship for Undergraduate Studies at University College Utrecht (2006-2009)  
Total Award: ~ € 21,000
- Merit Scholarship for A Levels at University College Lahore (2004-2006)
- Award for Excellence in Computing, University College Lahore (2005)
- Award for Academic Excellence, Bloomfield Hall School (2001)

## Funding & Grants

---

- Principal Investigator (PI) of the Polonez Bis 1 grant co-funded by the European Commission and the Polish National Science Centre under the Marie Skłodowska-Curie COFUND grant (Sept 2023 to Aug 2025), Project Title: *Growth of Black Holes in Stellar clusters* ; Total Funding: ~€214,000
- **Declined:** Principal Investigator (PI) of the Career Grant (2022-C) by the Swedish National Space Agency (Rymdstyrelsen) (2023 to 2026), Project Title: *Growth of black holes in star clusters: Dynamical formation of gravitational wave sources and high-energy transients* ; Total Funding: ~€303,000
- Principal Investigator (PI) of the Fysiografen grant awarded by the Royal Physiographic Society of Lund (2019 to 2020); Title: *Evolution of Binaries containing Massive Stars* ; Total Funding: ~€13,450
- Carl Tryggers Fellowship for postdoctoral research awarded by the Carl Tryggers Foundation for Scientific Research in Sweden (2018 to 2020)    Total Funding: ~€52,500
- PI of the Preludium grant for PhD students awarded by the Polish National Science Center (2016 to 2018)  
Title: *Black Hole Binary Zoo in Globular Clusters*    Total Funding: ~€15,750
- PI of the Nicolaus Copernicus Astronomical Center Grant for Young Researchers (2015 to 2017)  
Title: *Simulating Mock Observations of Star Cluster Simulations*    Total Funding: ~€3000

## Professional Memberships, Service Work and Meeting Organization

---

- Member of the European Astronomical Society (EAS) since 2023
- Junior Member of the International Astronomical Union (IAU) since 2019: [\[IAU Page\]](#)
- Member of the LISA (Laser Interferometer Space Antenna) consortium and its astrophysics working group since 2018
- Expert reviewer for the following journals: Monthly Notices of Royal Astronomical Society (MNRAS), The Astrophysical Journal (ApJ), ApJ Letters, Astronomy & Astrophysics (A&A), Acta Astronomica
- Organizer and chair for the 'Stellar Dynamics and Evolution' group meetings at Lund Observatory since 2021
- Examination committee member for master and bachelor student exams at Lund Observatory (2019, 2020, 2021)
- Scientific equipment procurement coordinator for Fysiografen grants at Lund Observatory (Fall 2022)
- Member of the local and scientific organizing committees for ELTs for All meeting at Lund Observatory in Sweden (11 to 12 February, 2019)
- Expert reviewer for grant proposals submitted to National Fund for Scientific and Technological Development (FONDECYT) of Chile (2019)
- Member of LOC for Spotkanie Młodych (Young Astronomers Meeting) at Nicolaus Copernicus Astronomical Center (2014 and 2016)

## Popular Talks and Public Lectures

---

- Public talk on “*Merging Black Holes in Star Clusters*” at Kulturnatten (Culture Night) 2022 at Lund Observatory, Sweden (2022).
- Invited popular talk on “*Merging Black Holes in Star Clusters*” at Gastronomilägret summer camp organized by Astronomisk Ungdom, Sweden (2022).
- Presented public talk (for high school students) on “*Merging Black Holes in Star Clusters*” at NMT Dagarna at Lund Observatory, Sweden (2022).
- Presented public talk on “*Simulating Star Clusters: Dynamical Evolution to Merging Black Holes*” at Kulturnatten (Culture Night) 2019 at Lund Observatory, Sweden (2019).
- Presented public talk on “*Cosmic Explosions: From Supernovae to Colliding Black Holes*” at Knut Lundmark-dagarna 2019 at Lund Observatory, Sweden (2019).
- Presented public talk (for high school students) on “*Merging Black Holes in Star Clusters: The New Era of Gravitational Wave Astrophysics*” at NMT Dagarna at Lund Observatory, Sweden (2019).
- Presented public talk on “*Astrophysics of Star Clusters*” at Monthly Meeting of Lahore Astronomical Society (LAST) hosted at Zeds Astronomical Observatory, Lahore, Pakistan (2019).
- Invited Popular Talk on “*Binary Black Holes and Intermediate Mass Black Holes in Globular Clusters*” at Koło Naukowe Astronomów (Student’s Astronomy Circle), University of Warsaw Observatory, Poland (2017).
- Presented popular talks on ‘Evolution of Star Clusters’ at Spotkanie Młodych (Young Astronomers Meeting), Nicolaus Copernicus Astronomical Center (2014 and 2016).

## Scientific Programming and Open Source Tools

---

Member of the development team of the [MOCCA code](#) for star cluster simulations since 2013.

### Open Source Development (2016–Present):

- Led the development of the *COCOA* code (written in *Python* & *C*): [\[Github Page\]](#) & [\[ASCL Entry\]](#)
- Contributed by fixing bugs and improving *NBODY6++GPU* code (GPU accelerated direct *N*-body code for collisional stellar dynamics): [\[Github Page\]](#)
- Co-developed interactive *Jupyter* notebook that uses a supervised machine learning algorithm to use observational properties of a star cluster to predict how many black holes it may contain: [\[Github Page\]](#)

## Skills & Miscellaneous

---

**Computer Languages:** Proficient in *Python*, *Fortran*, *Shell Scripting*,  $\text{\LaTeX}$ . Fairly decent with *C* and basic experience with *Apache Pig* and *HTML*.

**Data Visualization:** Proficient with *gnuplot*, *matplotlib* (and other Python visualization libraries e.g., *seaborn*). Fairly decent with *TikZ*, *matcha*

**Software:** Proficient with *Mathematica*, *TOPCAT* and experience with *MATLAB*. Very experienced in using popular presentation, word processing and spreadsheet programs. Experienced in using *Git* for tracking software updates.

**Graphic Design/Vector Graphics:** Fairly decent with *Inkscape* and *GIMP* (Vector Graphics Editors)

**Languages:** English (Fluent), Urdu (Native), Dutch (Beginner Level), Punjabi (Intermediate Level)
